Company Overview

Welcome to Essen Tech, the world leading manufacturer of various brass valves and components, producing a wide range of brass products including specialized valves for HVAC industry as well as those for construction, motor and gas industries.

Essen Tech is equipped with the integrated production lines from raw materials to the finished products, which is one of our advantages to strengthen our competitiveness.

Besides our cost competitiveness, we have strong confidence on our manufacturing technology, controlling quality and delivery. These commitments have been proved through long term business relationships with international conglomerates.

Essen Tech will be more prepared to meet our customer's needs ever than before and continue to thrive together with its customers.

Products Introduction

Ball Valves for Refrigeration Systems

Shut-off Valves suitable for bi-directional flow in Liquid, Suction and Hot-Gas Lines of all Refrigeration and Air-conditioning System

Magnetic Type Check Valve

Essen Magnetic Check Valve prevents reverse flow of refrigerant when operation-stop, and protects seat surface from debris by inner mesh screen

Ball valve & 3way ball valve for R744(CO₂)

- The specific design of ESSEN ball valves
- Refrigerant : R744(CO₂), HCFC & HFC
- MWP : 1,740psig(120bar, 122kg/cm²), Temp. : -40°F (-40C) ~ 300°F (150C)
