

Tailored solutions for cold storage

Who we are

Leader at a global level in the production and sale of commercial and industrial cold-storage doors, refrigerating systems and components, we export our products to more than 70 countries worldwide.

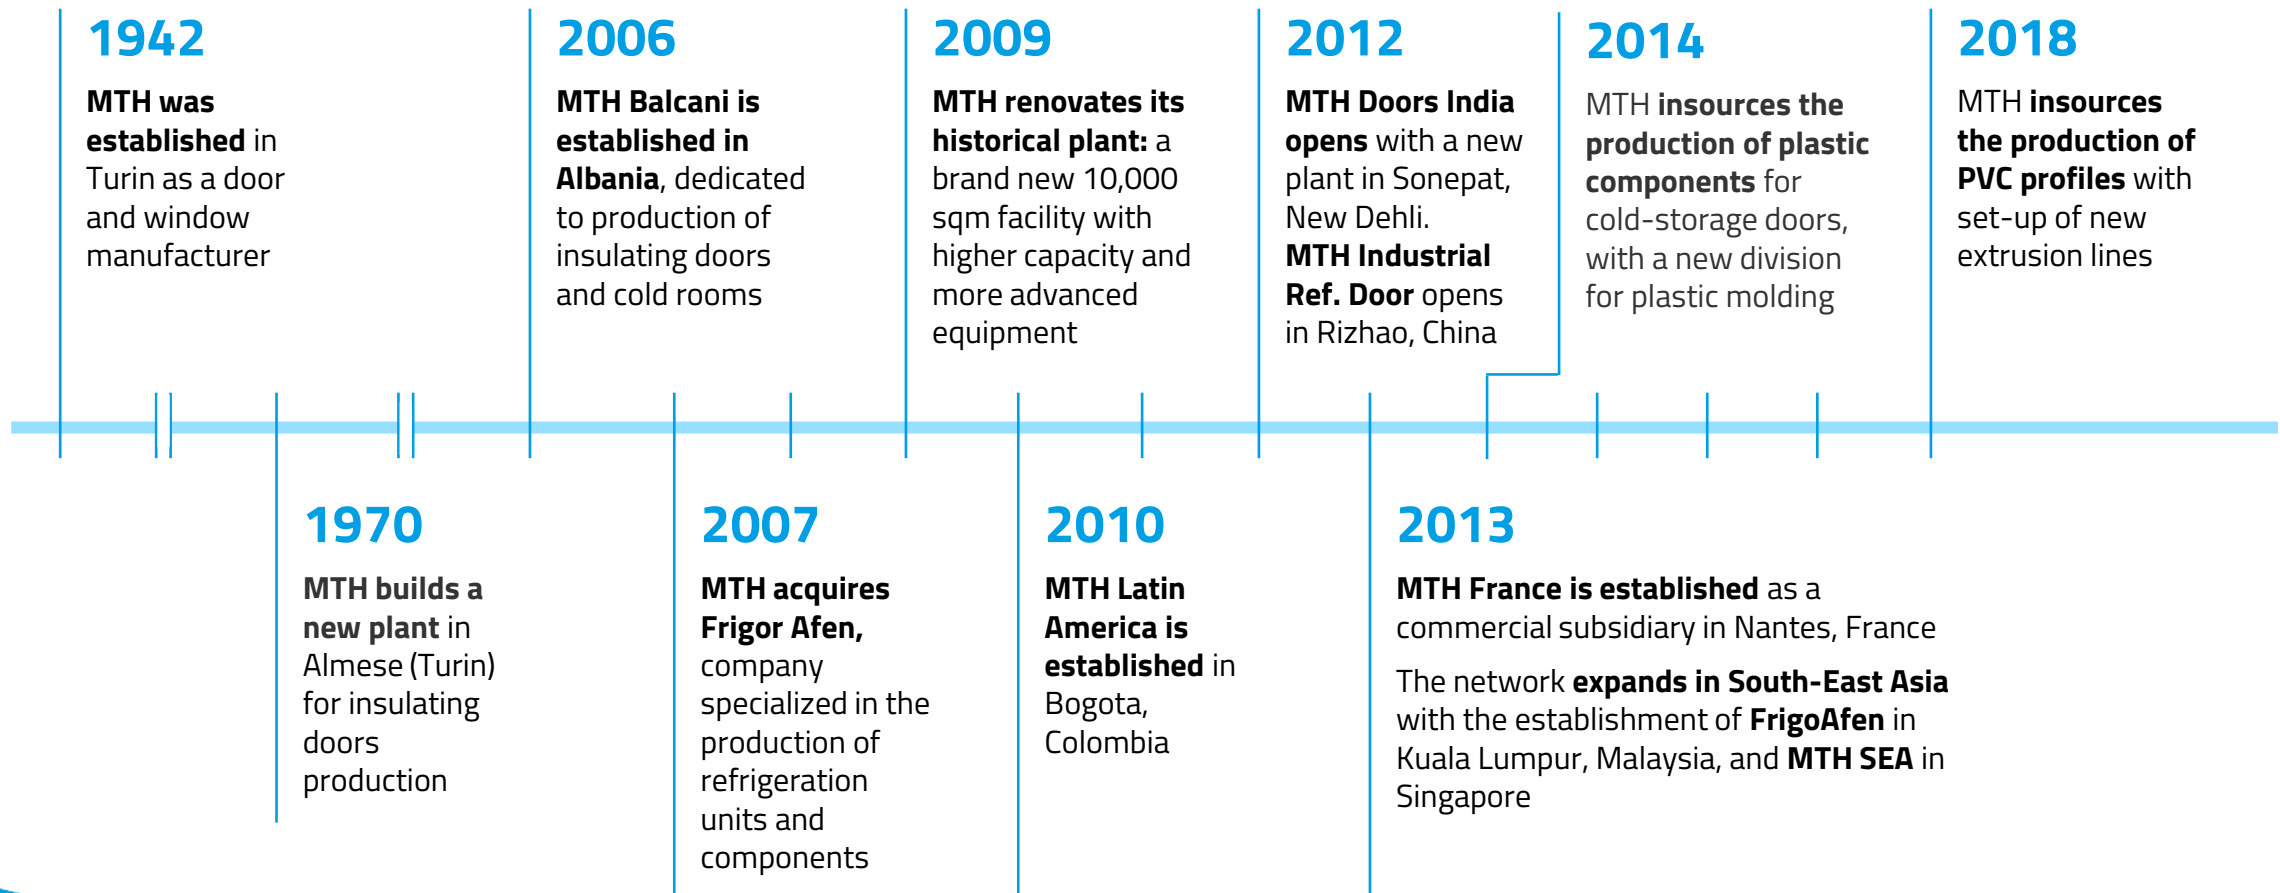

Our priority is to provide our clients with the **highest quality products, tailored solutions and support** in every phase of our collaboration, from design to installation.

Thanks to our specialized teams, we are able to guarantee the quality **across the full value chain**, from design to production of single components, cold-storage doors, cold rooms and refrigerating units and systems.

Choosing MTH means choosing a reliable partner and the quality of Made in Italy.

Our history

Our mission

Our mission is to satisfy our worldwide clients' needs, offering high-quality made in Italy products and tailored solutions, with careful consideration of the economic and environmental needs of our community.

Our value proposition

Global presence

We are able to reach our clients worldwide, thanks to our sister companies and a wide network of dealers

Made in Italy quality

We guarantee recognized quality of products and services, thanks to the severe control processes and attention to details. All made in Italy.

Continuous focus on innovation

We run continuous research & innovation to guarantee the best solutions to our clients in respect of the environment and our community

Wide product range

We provide a deep product range offer of refrigerating doors, refrigerating systems, components and mini cold rooms

Product customization

We design and manufacture custom products based on our clients' needs, developing the best solution together

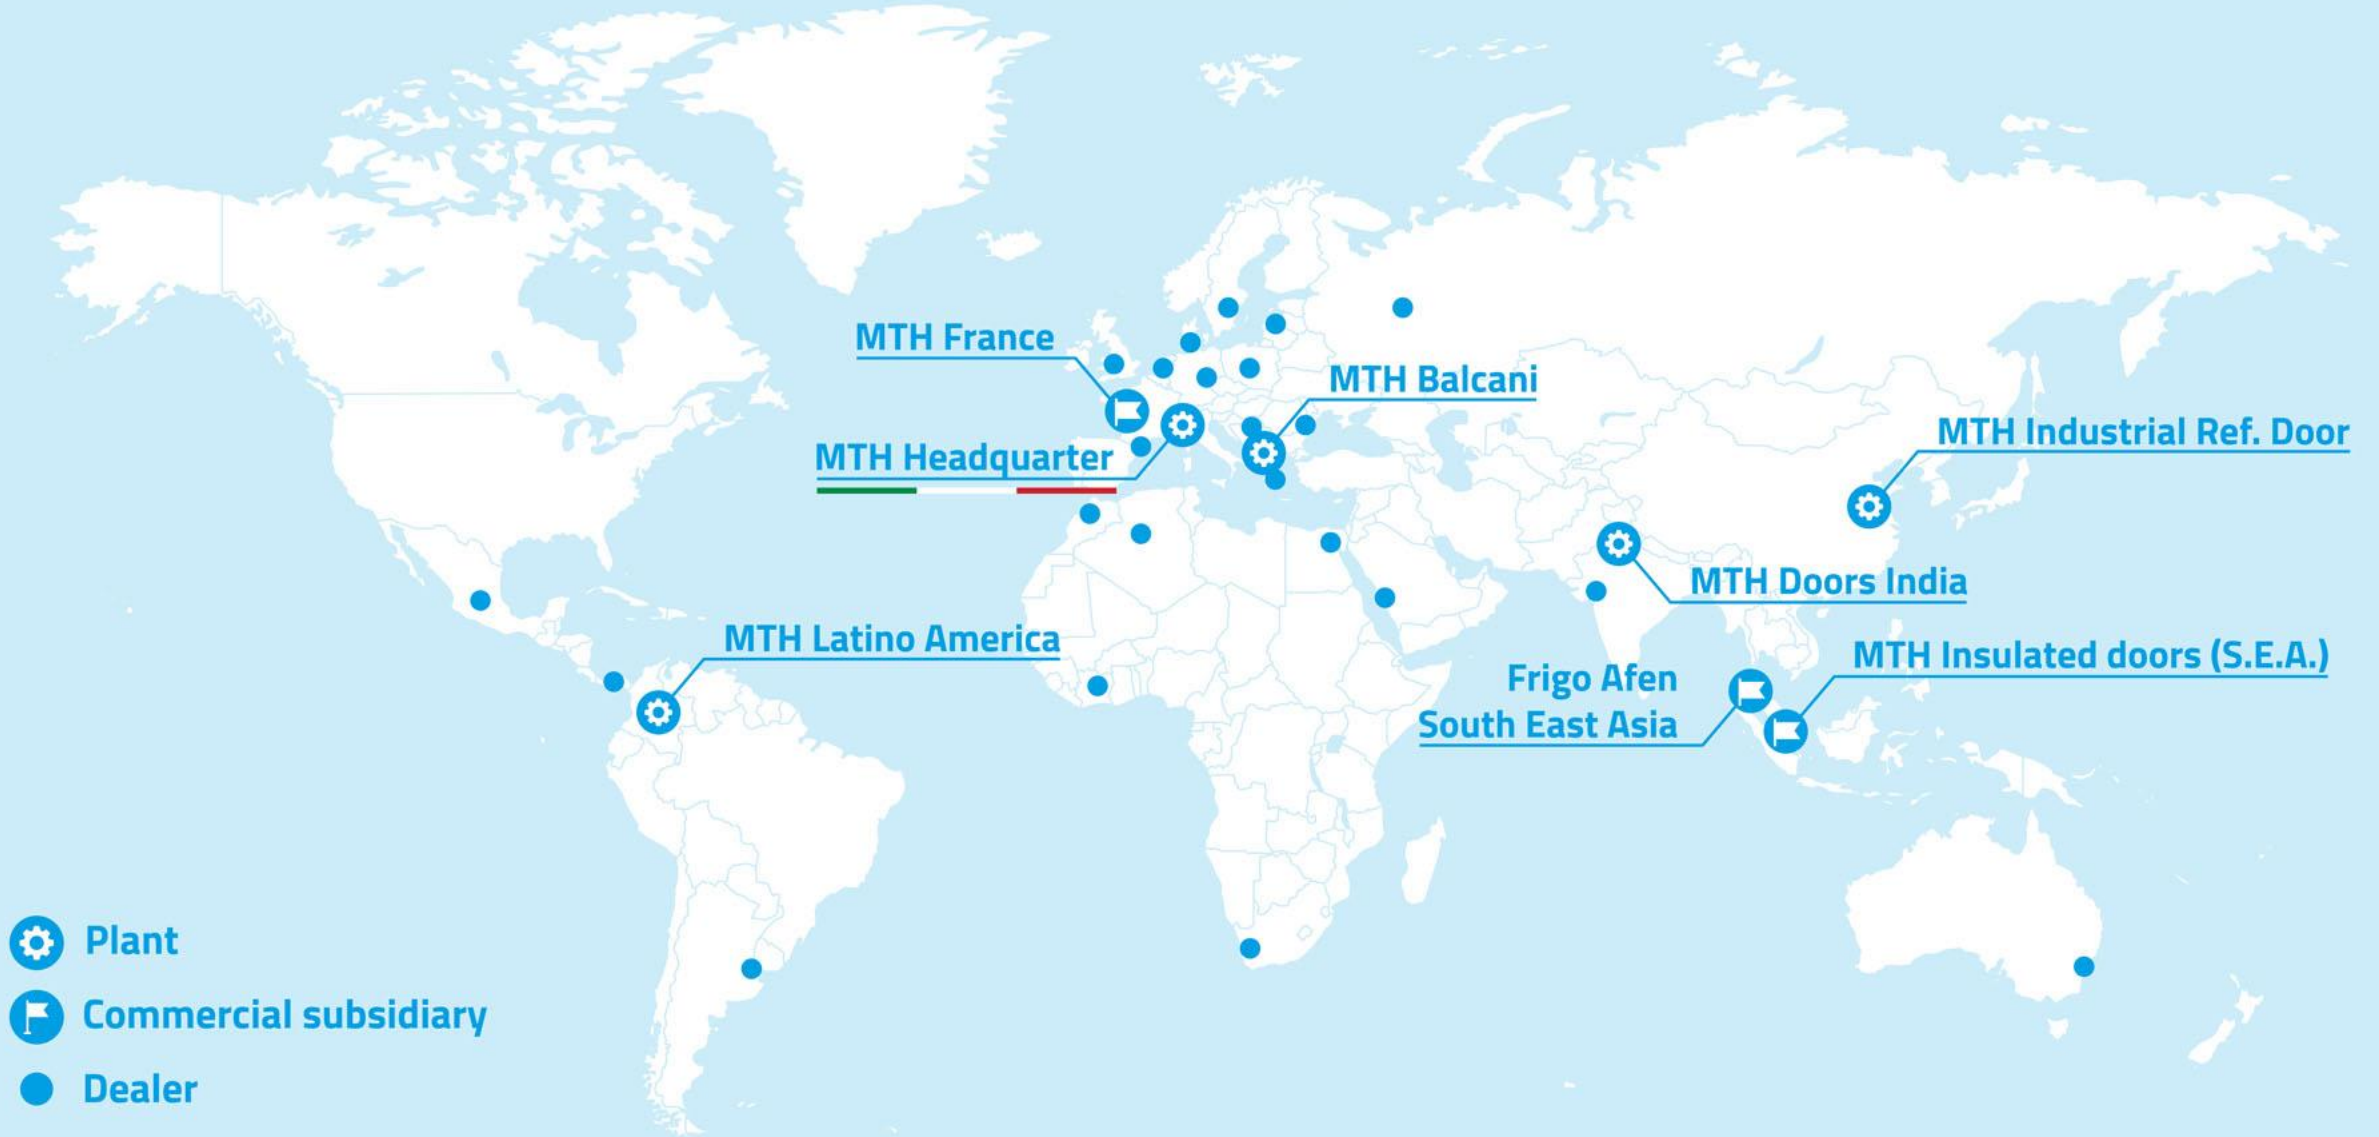

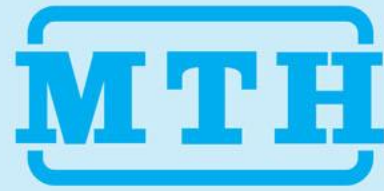

Value chain integration

Thanks to vertical and horizontal integration, we offer a complete range of products and services in a *one-stop-shop* solution, guaranteeing the quality throughout the value chain

Training and support to ensure quality

We provide support to our customers and dealers, with internal and on-site training and after-sales support services

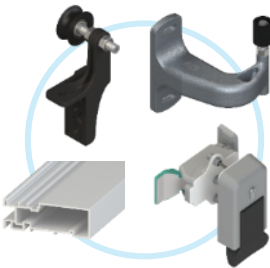

Our product range

**COLD-STORAGE
DOORS**

**DOOR
COMPONENTS**

**SOLUTIONS FOR
LOADING BAYS**

**REFRIGERATION
PRODUCTS**

**REFRIGERATION
COMPONENTS**

**COLD ROOMS AND
CABINETS**

Our services

Our **Design and Application Management** teams assist our clients in choosing and designing the best solution and support them during testing and installation

Customization

We offer a **wide range of products with a high degree of customization** – whether it is a specific handle color, door size or refrigeration system, we develop personalized solutions for our clients' needs

Joint design

We work together with our clients to get deep understanding of their needs and **co-design the best technical solutions**

Capability building

We organize **dedicated training sessions** (technical, sales) for our clients and partners, both in company and on-site leveraging our 80-year long expertise and know-how

Installation support

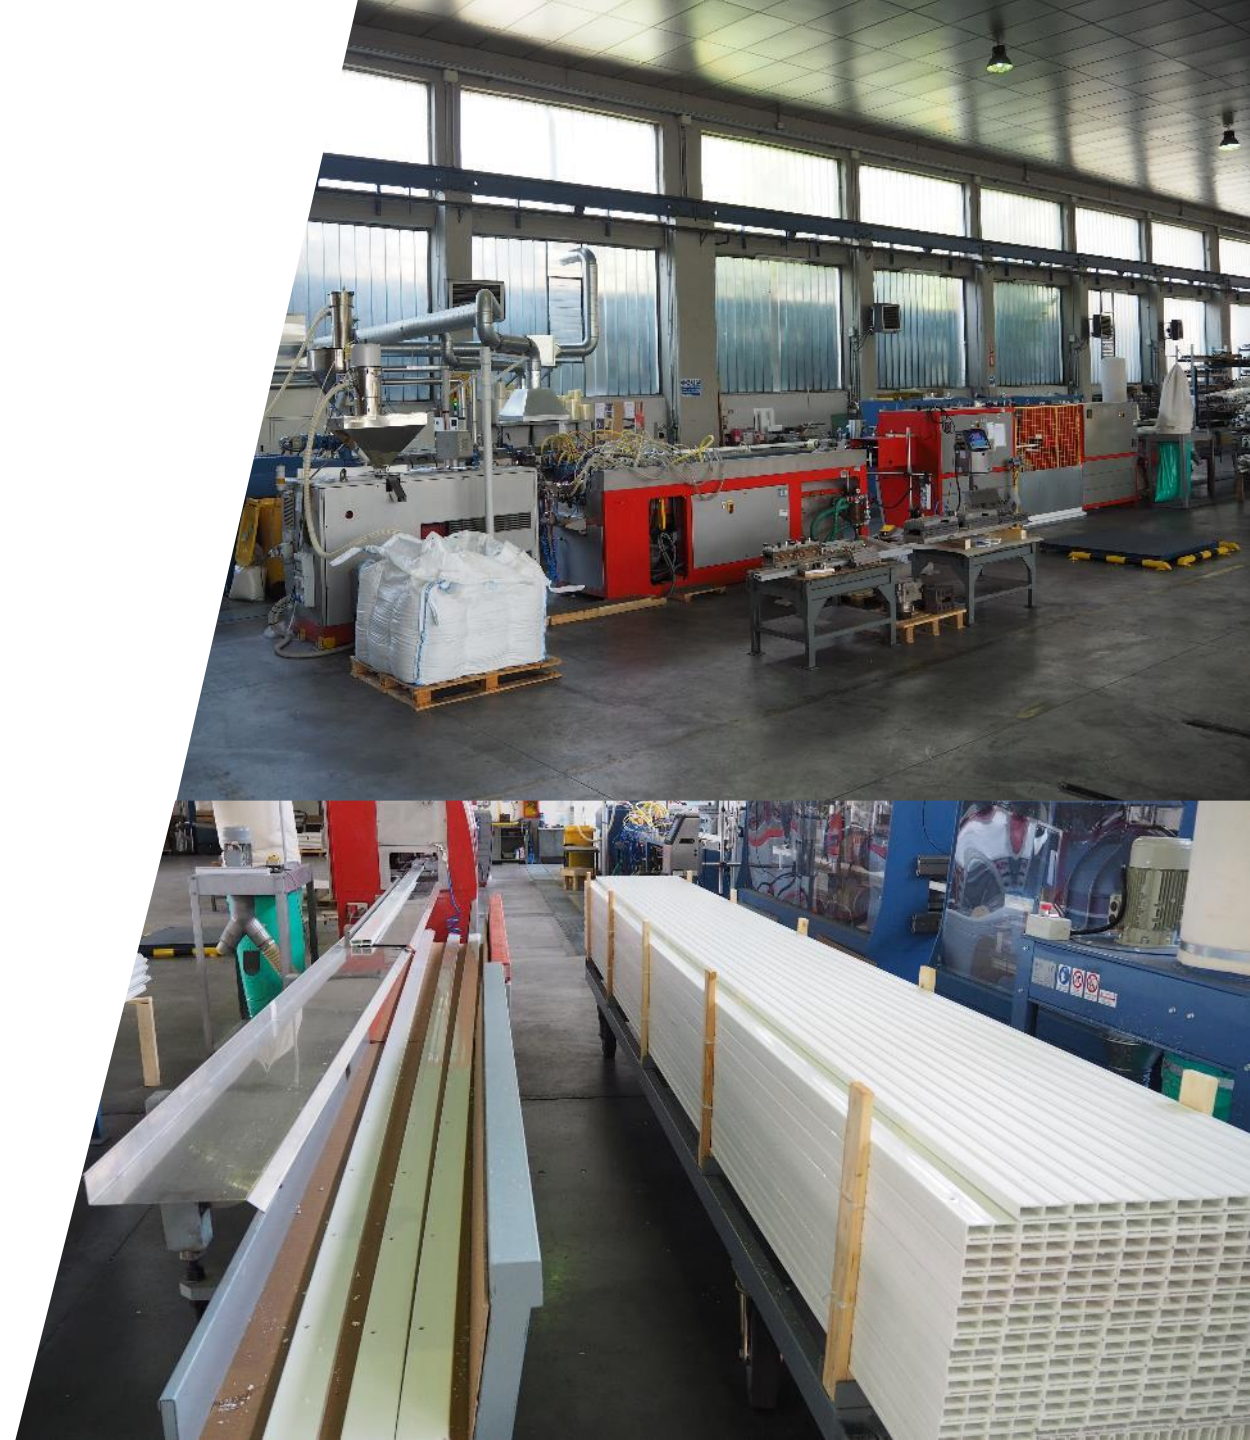

We assist our clients during **testing and on-site installation** to ensure proper end-to-end implementation of our solutions

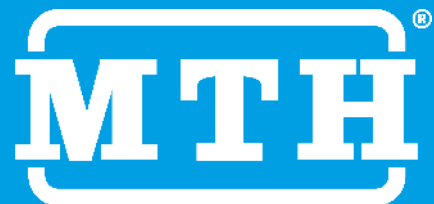

Integration along the value chain

Alongside its **consolidated expertise** in the production of cold-storage doors, cold rooms, and refrigerating systems, MTH has further leveraged on backward integration.

Moving in-house the molding of components in thermopolymers and the extrusion of PVC profiles for doors and cold rooms, with investments in new production lines, MTH is the sole player in the industry able to guarantee **controlled quality throughout the value chain**.

Moreover, this integration grants MTH higher flexibility and the possibility to offer personalized solutions to its clients.
